

# Penetrating Concrete Sealer (PCS)

**Strengthens, Hardens, Waterproofs  
And Dustproofs Concrete**

Flexi-Crete PCS is a clear, ready to use, non-toxic, odorless liquid that waterproofs, strengthens, hardens and dustproofs concrete surfaces.

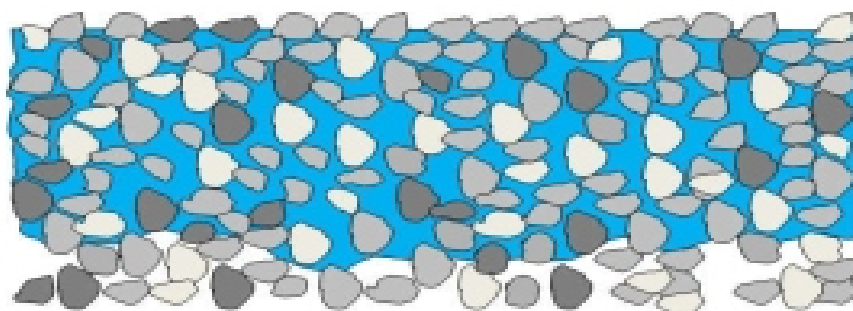

## Features of Flexi-Crete PCS

- Ready to use, no mixing/dilution required, easy to apply.
- Penetrates the concrete by chemically reacting with the free lime.
- Increases the hardness of the concrete. Can be used as a floor hardener.
- Densifies and dustproofs concrete floors.
- Provides better abrasion resistance.
- Can be used on most cement surfaces for waterproofing.

## Area of Uses

All concrete floors, car parks, industrial floors, warehouses, malls, Concrete terraces, toilets, basements, swimming pool, podiums, terrace gardens, driveways, etc.

## Penetration of Flexi-Crete PCS In Concrete Surface

## Technical Data

Appearance	Colourless/Transparent
Solids (%)	12-15
PH	11-12
Specific Gravity	1.10-1.15
Viscosity (Seconds)	12-14
Coverage Approx	40-45 SFT/litre (2 Coats)
Packing	25 litre can
